and was produced by National Instruments.

National Instruments transforms the way engineers and scientists around the world design, prototype and deploy systems for test, control, and embedded design applications. Using NI open graphical programming software and modular hardware, customers at more than 25,000 companies annually simplify development, increase productivity, and dramatically reduce time to market. From testing next-generation gaming systems to creating breakthrough medical devices, NI customers continuously develop innovative technologies that impact millions of people. **DI**
